Erasmus + KA210-SCH: FROM SCHOOL TO EU

Project

The main objectives:

- Become aware of students European identity to give them a sense of belonging and values.
- Achieve the skills that we will work on and obtain the micro-credentials that accredit it and receive new learning methods.
- The 3 topics that will be worked on in international mixed groups will be:
 - Eco-sustainability at school,**
 - Socio-economic inclusion in local community and**
 - Digital-policy for young people.**

Project

The mixed group that makes the best proposal will be chosen as EU ambassador (5 for each school) and will have the opportunity to travel to Brussels to present this work to the parliamentary authorities of their respective regions.

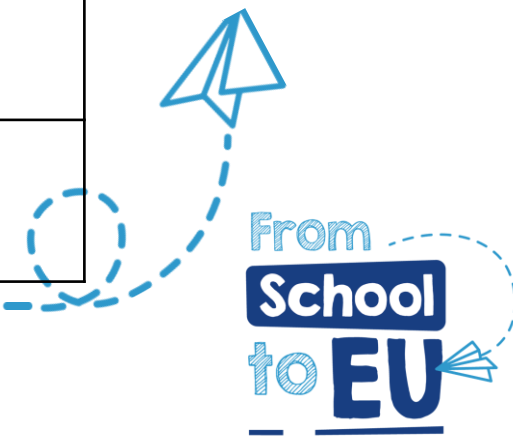

Project

How we are going to work in mixed cooperative teams:

Team	Topic	LICEO DA VINCI (ITALY)	OGEC FRANÇOISE CAMBRINI (FRANCE)	IES ETXEBARRI BHI (SPAIN)	Total pupils
A	Eco-sustainability at school	N> 5	N> 5	N> 5	N> 15
B	Socio-economic inclusion in local community	N> 5	N> 5	N> 5	N> 15
C	Digital-policy for young people	N> 5	N> 5	N> 5	N> 15

eTwinning Platform (ESEP)

The project is going to be developed on the eTwinning platform, since it is safe and adequate for the communication of the students and the exhibition and dissemination of their activities.

For this reason, both teachers and participating students will have a user to enter and participate in the **Twinspace** of the project.
